

Katharina S. G. Mueller

Nobody

for Voice, Clarinet, Violin, Cello,
Percussion (Bass Drum, Glockenspiel)

(2022)

Program Notes

Emily Dickinson's poem "Nobody" is interpreted in this piece as the expressions of a young child. From the beginning, the clarinet represents the voice of the young protagonist grappling with rising anxieties and the feeling of being a "nobody". The melodies the clarinet attempts to create for themselves are tangled up in murkiness, dissonance, and temporal instability produced by the other players.

The character of the piece shifts when the vocalist enters, a warm and welcoming companion to the clarinet who introduces herself as per Dickinson's text: "I'm Nobody! Who are you?" As the vocalist and clarinet evolve an affectionate dialogue, all the motivic material formerly presented in the work's turbulent beginnings return, this time in conjunct lines resting on gentle harmonies, revealing a lullaby that was there the whole time.

Duration ca. 10:00

Text

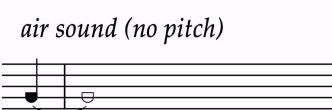

I'm Nobody! Who are you?
 Are you — Nobody — too?
 Then there's a pair of us!
 Don't tell! they'd advertise — you
 know!

How dreary — to be — Somebody!
 How public — like a Frog —
 To tell one's name — the livelong
 June —
 To an admiring Bog!

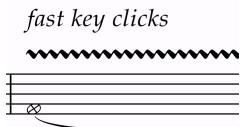

Performance Notes

For Clarinet in A

Air Sounds:
 Breathe out through instrument according to dynamics indicated, without creating a pitch.

Key Clicks:
 Produce a constant sound by clicking keys forcefully over the indicated duration.

For Strings

Tremolo Gliss:
 The arrow note head indicates that the glissando should start or end at an unspecific pitch near the top of the indicated string.
 Harmonic pressure in the left hand. Molto sul pont.

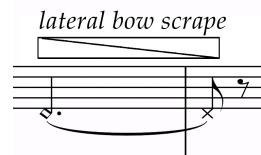

Performance Notes Cont.

For Strings Cont.

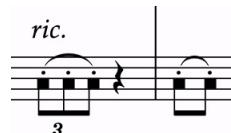

Lateral Bow Scrape:

Played by dragging bow perpendicular to string, from the edge of the finger board to the bridge, with sufficient pressure to create creaking sound. Played on open string as notated

Pitchless Ricochet:

Played with the tip of the bow, sul tasto, with a sharp attack, achieved by a very slight up-bow motion. Mute strings with left hand so as to produce no pitch.

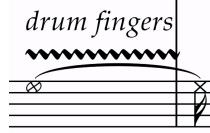

Molto sul pont. harmonic:

Play using only the edge of the bow hair, as near to the bridge as possible, to produce harmonic 3 octaves up from open string

Finger drumming on instrument:

Use four fingers (finger tip, not nail) to evenly drum on the shoulder of the instrument (cello)

Col Legno Tratto:

Using the stick of the bow, play sul tasto, and use a fast bow speed such that the bow slides fluidly over the strings in the rhythm indicated.

Dashed Arrow:

Indicates a gradual, smooth transition from one bow stroke to another over the duration of the dashed line

flautando -----> *ord.*

For Percussion (Bass Drum, Glockenspiel)

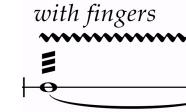

Accents:

Use medium-soft mallets such that both a smooth, even roll and clear, articulate accents are possible. Accents should pop out of the texture within the larger dynamic context of the phrase.

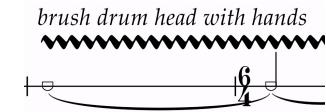

Finger Roll:

Drum four fingers rapidly on to create a constant roll sound. Drum close to the rim for soft sounds, moving towards the middle to crescendo (and vice versa)

Hand Brush:

With fingernails in contact with drum, make figure-eight motions across drum head, with faster strokes for louder dynamics.
